3

Select 'Child defaults' to restrict all adult content from the user. Or select 'Custom' to customise the settings for your preference.

The screenshot shows the 'Privacy & online safety' settings for a user named 'HungryGamers'. The settings are divided into two main sections: 'PRIVACY' and 'CONTENT RESTRICTIONS'. In the 'PRIVACY' section, there are four radio button options: 'Child defaults' (More private), 'Teen defaults' (Moderate), 'Adult defaults' (More social), and 'Custom'. The 'Child defaults' and 'Custom' options are highlighted with red boxes. In the 'CONTENT RESTRICTIONS' section, there are four sub-sections: 'Access to content' (Appropriate up to age 6), 'Web filtering' (Turned off), 'Descriptions in OneGuide' (Allow explicit text), and 'Contact preferences'.

Child privacy & online safety summary

CHILDREN CAN

Children can play and download free games, music, videos, and apps, and make game clips of their best moments.

Children can see other people's profiles, and content they create, but need a parent to add friends.

OTHERS CAN

A child's friends can communicate with them, and see when they're online and available to play.

Microsoft can use the child's video app history to help improve their experiences. Microsoft will store the child's exercise info with their online profiles and keep it private.
